† Goods destined for overseas countries are largely transferred from one State to another for transhipment to the overseas country. For 1907 and the subsequent years such goods are, in this table, shewn against the State from which they were finally despatched from the Commonwealth. The exports from New South Wales and Victoria—the States in which transhipments are chiefly made—are thus inflated by the inclusion of goods consigned from other States. Owing to the discontinuance of the records of interstate trade from the 13th September, 1910, adjustment on account of transhipments can no longer be made. On the basis of the transhipments recorded during the years 1907, 1908, and 1909, the New South Wales figures include exports of other States amounting to £3,036,672 net, per annum, and Victoria £1,003,714, which were originally despatched as follows:—From Queensland, £1,376,484; South Australia, £1,018,592; Western Australia, £8884; and Tasmania, £1,636,426. The great difference between the value of exports from Tasmania during the year 1901 and subsequent years is due to the fact that in the former year goods despatched from Tasmania for transhipment in other States were recorded as overseas exports from Tasmania, whereas in the later years they are included, for the most part, as exports from New South Wales and Victoria.

* Owing to the failure to record as Oversea Imports, goods received in one State of the Commonwealth for transhipment to another State thereof, it has been estimated that the value of Imports given in this table is understated by the following amounts:—1901, £2,121,500; 1902, £1,546,924; 1903, £1,024,211. † Does not include the value of Stores shipped in Australian Ports on board overseas ships.
